Pathology

Chapter - ②

- ★ LO ① Cell Injury → defination, etiology, Pathogenesis.
- ★ SN ② Fatty liver
- ★ SN ③ Necrosis
- ★ LO ④ Apoptosis
- ★ SN ⑤ Gangrene
- SN ⑥ Metaplasia & Hyperplasia
- ★ ⑦ Apoptosis & Necrosis
- ⑧ Dry gangrene & wet gangrene
- ★ ⑨ dystrophic & metastatic calcification
- ★ ⑩ Metaplasia & dysplasia

} difference

Chapter - ③

- SN ⑪ Transplant Rejection
- ★★ LO ⑫ AIDS → etiology, Routes to transmission, ~~defination~~ pathogenesis Clinical manifestations, diagnosis
- SN ⑬ Hypersensitivity Reactions
- SN ⑭ SLE
- ★★ LO ⑮ Amyloidosis → Physical & chemical Nature, defination, Pathogenesis, classification, staining, diagnosis, Amyloidosis of liver, kidney, spleen.

Chapter - ④

- ★★ LO ⑯ oedema → defination, Pathogenesis, Types :- cardiac & pulmonary oedema
- ★★ SN ⑰ CVC of lung, liver, spleen
- ★★ LO ⑱ SHOCK → defination, classification and etiology, Pathogenesis and pathophysiology (stages) Morphological features.
- ⑲ Thrombosis → defination, Pathophysiology, ★★ fates of thrombus
- ⑳ Embolism → defination, Types and pulmonary Thromboembolism.

Chapter - (5)

★★★★★ LQ (21) Acute Inflamation → Vascular & cellular events Morphology

★★★★★ LQ (22) mediators of inflammation

SN (23) giant cells

SN (24) granulomatous Inflammation

★★★★★ LQ (25) Tuberculosis → HIV Associated T.B., causative agent, mode of transmission, Pathogenesis. Evolution of tubercle, Types, Clinicle features.

SN (26) Syphilis

★ SN (27) Healing → first and second intention

Chapter - (6)

★ SN (28) Torch complex

Chapter - (7)

★★★★★ LQ (29) Neoplasia → defination, classification, difference b/w Benign and malignant tumour. characteristicks of tumours.

★SN (30) mechanism and biology of Invasion and metastasis.

(31) grading and staging of cancer

★★ (32) molecular basis of cancer.

★★ (33) chemical carcinogenesis

★★★★★ SN (34) Paraneoplastic syndrome

★★★★★ LQ (35) Pathological diagnosis of cancer.

★★★★★ SN (36) tumour markers.

★ (37) SN → P-53 and RB gene.

R (38) viral carcinogenesis

Chapter - (8)

★ (39) difference b/w Kwashiorkor and Marasmus.

Chapter - (9)

★ (40) Down's syndrome

★ (41) Klinefelter syndrome

★ (42) Turner's syndrome

★ (43) Mendelian disorders.
★★★★★ (44) storage disorders.

Chapter -(10)

★★★★★ LQ (45) Anaemia → defination, classification
(i) Iron deficiency Anaemia
(ii) Megaloblastic Anaemia
Mainly etiology, clinical features and lab diagnosis

SN (46) classification of Haemolytic Anaemia and lab diagnosis.
★ (47) sickle syndromes
★ (48) Thalassamias → Mainly β-thalassaemias.

Chapter -(11)

SN (49) ITP (2) TTP
SN (50) Heamophilia A and B
(51) Von-Willebrand's dis.
★★★★★ (52) DIC
★★ (53) Blood transfusion.

Chapter -(12)

★ LQ (54) Infectious mononucleosis → Pathogenesis, c/f, lab diagnosis
★★★★★ SN (55) Leukemoid Reaction
★★★★★ LQ (56) CML
★★★★★ LQ (57) AML
★★★★★ LQ (58) Hodgkin's disease
★★★★★ (59) Burkits lymphoma and Hairy cell leukemia.
★★★★★ LQ (60) Multiple Myeloma.

Chapter -(13) (Blood vessels)

★★★★★ LQ (61) Atherosclerosis → defination, etiology, Pathogenesis, morphologic features, c/f

★ SN (62) PAN (Poly arteritis Nodosa)
R (63) Burger's dis., Wegners granulometosis
SN (64) Aneurysms
SN (65) Kaposi sarcomas

Chapter - (14) (Heart)

(R) (66) Tetrology of fallot

(67) Ischaemic heart disease → defination, effects.

★★★★★ LQ (i) Acute myocardial infarction

SN (ii) Angina Pectoris

SN (68) serum cardiac markers.

★★★★★ LQ (69) Rheumatic Heart disease (RHD)

(R) (70) Infective endocarditis

chapter - (15) (Resp.)

(71) ARDS

(72) Pneumonias → lobar pneumonias

★★★★★ LQ (73) COPD → defination, Types.

★★ (i) Emphysema.

★★ (ii) Broncial Asthma.

★★ (iii) Bronchiectasis.

(74) Pneumoconiosis → (i) coal - workers.

(ii) silicosis

★★ (iii) Aesbestosis

★★★★★ LQ (75) Bronchogenic carcinoma (tumor of lung).

chapter - (16)

★★ (76) Retinoblastoma

Chapter - (17)

★★ (77) Pleomorphic Adenoma

chapter - (18) (UIT)

SN (78) gastritis

SN (79) Peptic ulcer & (defference b/w gastric and duedenal ulcer)

★★ LQ (80) IBD & (difference b/w crohn's and ulcerative colitis)

(R) SN (81) Secondary intestinal T.B. and Enteric fever.

(R) (82) Mal absorption syndrome

(R) (83) carcinoid tumour

★★ (84) colorectal carcinoma

Chaptor - (19) (liver)

* LO (85) LFT
* LO (86) Jaundice → defination, metabolism, classification diagnosis → LFT
* SN (87) Hep. B → serological and viral markers.
* ***** LO (88) Cirrhosis → Pathogenesis, classification, etiology, Morphologic features, lab diagnosis.
R (89) Portal Hypertension
***** LO (90) Hepatocellular carcinoma.
***** LO (91) Cholelithiasis and cholecystitis.

Chapter - (20) (Kidney)

LO (92) RFT (97) KFT
** (93) Polysystic kidney disease.
* LO (94) glomerular dis. → defination, classification, CF, Pathogenesis → immunological mechanism.
(difference between nephritic and Nephrotic syndrome)
R (95) Acute glomerulonephritis.
***** (96) Rapidly progresive glomerulonephritis
***** (97) membranoproliferative glomerulonephritis.
(98) IgA nephropathy (Berger's dis.)
R (99) diabetic nephropathy.
***** (100) ATN
R (101) Nephrolithiasis
***** (102) Adenocarcinoma of kidney (RCC) (Hypernephroma)
***** (103) Wilm's tumour.
R (104) Hydronephrosis.

Chaptor - (21) (MUT)

** (105) classification of testicular tumours, seminoma
** (106) Nodular Hyperplasia (BPH)
** (107) carcinoma prostate

Chapter - (22) (FUT)

* (108) CIN / SIL
***** (109) Leiomyoma
** (110) Teratoma
***** (111) Hydatidiform Mole

Chapter - (23) (Breast)

SN (112) fibroedenoma

★★★★ LO (113) carcinoma of Breast → Risk factors, etiopathogenesis classifications.

- (i) Intraductal
- (ii) Infiltrating duct carcinoma - NOS
- (iii) Paget's dis. of nipple main details.

Chapter - (24) (skin)

★★★★★ (114) squamous cell carcinoma

★★★★★ (115) Basal cell carcinoma

Ⓡ (116) Maligant Melanoma

Chapter - (25) (Endocrine)

SN (117) Hashimoto's thyroiditis

Ⓡ (118) grave's dis.

★★★★★ SN (119) goitre → ① colloid goitess ② Nodular goitre.

★★★★★ (120) diabetes Melitus → defination, classification, ★ Pathogenesis, morphologic features clinical features, ★ complication. ★ diagnosis.

VLTRA

Chapter - (26)

Ⓡ (121) osteosarcoma

Ⓡ (122) giant cell tumour (osteoclastoma)

★★ (123) Ewing's sarcoma

Chapter - (27)

★★ SN (124) lipoma ② liposarcoma

Chapter - (28)

★★★★★ SN (125) Meningitis

★★ (126) Meningiomas

★★ (127) Schwahomas

Others

Ⓡ SN (128) Pap's smear.

Ⓡ SN (129) fNAC.
